### European Style Farrowing Crate Advantage

1. We lead into most advanced European style farrowing pen design concept, we are committed to saving every penny for our customers.
2. Both the length and the width of the crate can be adjusted according to the size of the sow. A high capacity stainless steel tipping trough is fixed to the crate.
3. The surface was treated by hot-dip galvanization. Prevent rust and long service life.
4. The height of anti-pressure bar can be adjusted as the piglets growing, to make sure it can protect the piglets all the time.
5. The feeder, the water bowl, the incubator and heating pad, etc., all these help to take care of the piglets well.
6. The width of the crate could be adjustable, which is flexible to different size of the sows.
